"Never Let You Out"

Take a look into your eyes
tell me strangest kind of lies
a little joy and loads of shit
makes the habit you can't quit

white as angel sheets
so high you think you're gonna peak
so low the ground is gonna blow
so out you wanna scream and shout

hide your faces all your hideouts too
It never lasts as long as it did for you
never go back there again ,they'll
never let you out

..of your room
waiting for the colour bloom
like a kid lost in the wild
sho ws you fragments of your child..

repeat chorus
