Serpentine

Reeling offbeat on the all time high
Pushing enveloped detoured rollercoaster rides
Took a night to remember and a day to forget
We never bothered talking...
Strolling zigzag and around the bends
Put all trust in lucky charms,beginning with the end
I called up a candlelit romance and read
Still I couldn't get it...
Last time we deviated ,raving about it,
We had no second thoughts
I spent a lifetime finding out how you move
Crooked constellations -
Serpentine,serpentine
Outta sight,outta mind
Counting numbers,days and weeks go by
Find no reason to retrieve,no matter how I try
Crystalline your voice resounds in my head
I am all addicted....
Last time we deviated ,raving about it,
We had no second thoughts
I spent a lifetime finding out how you move
Crooked constellations -
Serpentine,serpentine
Outta sight,outta mind
Zigzag and around the bends
There and back without an end
Still your song resounds!
Last time we deviated ,raving about it,
We had no second thoughts
I spent a lifetime finding out how you move
Last time we deviated ,raving about it,
We had no second thoughts
I spent a lifetime finding out how you move
Crooked constellations -
Serpentine,serpentine
Outta sight,outta mind
