"Wearing Yr Smell"

You Took my hand in yours
Fed me lies and locked the doors
Showed me truths I never saw
I can't believe them anymore
Now I'm looking through you
Oh, yeah

You suck the will from my soul
Leave me naked in the cold
Tie the noose around my neck
Can't you see I'm not dead yet
But I'm working on it

Wearin yr smell
I'm still wearin yr smell

Fading from myself
Feeling sorry for myself
Feeding the pity inside
The pathetic feelings I should hide
But Im thriving on it
Yes Im thriving on it

Wearin yr smell
I'm still wearin yr smell

Fading
Feeling
Feeding
