Fear of the panic you can feel
Your essence atrophied with your smile,
Terrible illusion – sickly laugh
Shade of beasts is flash in your eyes

Blind fury attest a brain damage
Perversion perception of the life
Mad fun – subconscious disease
On level of reflection of survival

Roots of anomaly in your head,
Mental disharmony – painful thoughts
Pathologic action – real death

Structure of existence is deform

It's a phenomenon is identical to the end
Uncontrollable process of influence is unturned

Anthropomorphizing echoes of emotions
Buried in ruins of your consciousness

Your feeling is exaggerates
Detachment into inner man

Empty eyes,
Cruel hands,
Infected mind –
Chaos time...
