You tired out, encirclement and grow numb you will
wait

For thousand hands and expiation by the death
Blessed feelings in uniting with Eternal; bleed flesh
Are contemplation for the soul

Dreadful panic, bitter fear and remorse,
Dissolution in the darkness for ever
Feverish convulsive movements, hopeless scream,
Individual Golgotha eclipsed the mind

Indifference seizes the essence Â–
Payment by the death for the rash absurd thoughts
Firebreathing stoves of the chaos
Devour the trash of your sick dying consciousness

Time frayed through the remains of your membrane
Gives birth to your pain, murder of the helpless souls
You know the time of your timeless suffering
In abyss of the space, - You're damned messiah!

Headless body Â– nameless corpse
In the mess of mankind Â– worthless
Pseudo-clearance, fatal mistake, moral fall,
Messiah who can't save people out of darkness
Dead apostle of mad religion, who disturbed the
human brain,
Dreams turn to nothing, disappeared, you'll wait for
laugh Â–
You take the death wheeze...
Purposeful monster Â– selected victim,
As the consequence of greediness
Thousand hands destroy your body,
Will you want the end like it?
Atmosphere is charged by venom,
Rise your hands to blackened sun
In the vacuum of the cosmos Â– pulsed brain Â–
ethereal bomb
Time will come and when the planet
Will turn into the lonely desert,
Your useless bones snow white on sand Â–
The Earth becomes your giant tomb

Abstract knowledge, mental depth
Your subconscious is exhausted
Roots grows from the past:
Ages to ages, dust to dust..
