America, hot as hell, hysterical, cast your spell  
The endless road, another night to bend your mind  
White line fever, I think that state patrol car's still  
behind

America, cold as death, up to Canada, crystal meth  
Another Westcoast turnaround and back to start  
Yakima reservation, just another broken heart

[Incomprehensible]

America, I liked it fine, Sinsemilla, Ripple Wine  
Another schoolgirl with her daddy's Pontiac  
Another killer from the wrong side of the tracks

America, fast cars, America, the girls, the bars  
America, don't make no fuss, America, get on the bus
