Make out, make out, you must run
Divide and rule, more and more
Say the word, hardcore, hardcore

You live your life, behind your eyes
You got no life, no disguise

Be my baby, I ain't gonna cry
Shut your mouth, I wanna do the dog
Sex with needles, gonna get you off

Outlaw, outlaw, no, ma'am, no way
Turn me down? Damn shame, I'll say
Going to a freak show to take my pain away

Breakout, breakout, you must dance
Divide and fall, more and more
Save the world, high score, high score

You live your life, behind the wall
You got no life, gonna fall

Be my baby, I ain't gonna cry
Shut you down, I wanna do the dog
Sex with monsters, gonna get you off

Outlaw, outlaw, no, ma'am, no way
Turn me down? Damn shame, I'll say
Going to a gun show, to take my brain away

Fake out, fake out, you can't leave
Divide and stall, more and more
Say the word, webcore, webcore

You crawl in life, behind your face
You got no life, no disgrace

Be my baby, I ain't gonna die
Stay right there, I wanna do the dog
Sex with killers, ain't gonna get them off

Outlaw, outlaw, no man, no way

Turn me down? Damn shame, I'll say
Going to a no show
To take my shame away
Can't take the shame away
