Hey, hey

Working the room with her cat clothes on
Messin' up my mind
The mouth just made for kissin'
Says a good man's hard to find

I'm just hangin' standin' there
Can't believe my eyes
She looks so fine and she smiles so kind
Make a strong man cry

She does me in and, and she'll do you too
She only got to shake it
And I'm shakin' in my shoes

You know, she's a natural woman
You know, she likes that fine
You know, she's a total killer
And she ain't even tryin'

I want her so bad I get shivers
If I can't see her enough
She asked my name, I said, "Honey
My name is Dr. Love"

Sat down by me and I told her
She's like to drive me blind
She smiled like a hungry tiger
Said a hard man's good to find

I just stood there helpless
Wondering what I should move
She said, "Come on honey, show me your money
Ain't got no time to lose"

She does me in and she'll do you to
She only has to shake it
And she shakes me in my shoes

You know she's a lovely lady
She ain't no easy girl

She make me wanna love her long time
To make her toenails curl

I want her so bad I get crazy
If she don't love me enough
I need to examine her stamina
'Cos my name is Dr. Love

She got no human pity
She don't care who she hurts
The face of an evil angel
Says a hard man makes her worse

I want to drive her crazy
Get her in her in between
But she makes it awful hard
If you see what I mean

She does me in and she'll do you too
She only got to shake it
And I'm shakin' in my shoes

You know, she's a classic beauty
She don't want to fight
She wants a man who's standing tall
And I stood up all right

I want her so bad I get crazy
If she don't call me up
She said, "Honey, do you want me to call you?"
I said, "Just call me Dr. Love"
