## "I'm The Doctor"

Visit "[I'm The Doctor](#)" on [MotoLyrics.com](https://MotoLyrics.com)

I know the way you feel, I know it ain't too good  
I know it feels like there's detergent in your blood  
I'm gonna help you, gonna make you feel alright  
I'm gonna lift your black depression, help you through  
the night

I'm your man, you know I'll help you if I can  
'Cos I'm your doctor

I know you're desperate, I really sympathize  
I see the morbid horror flicker in your eyes  
But rest assured I'm gonna help to ease your pain  
I'm gonna put a thousand tiny implants in your brain

I'm your boy, I'll make you undulate with joy  
'Cos I'm your doctor

Don't get too depressed, I've found a way to help your  
case  
A little hypodermic sends you into outer space  
You'll feel much better when you take these little pills  
I'm gonna give you 60 bottles, I believe in overkill

Heart attack, you know you're never coming back  
'Cos I'm the doctor
