Listen up babe, you're no fool
I wish I walked you home from school
Dream lover, head to tail, coulda put a lot of boys in jail
Tell you what, you're red hot
Let's go do it in the parking lot
I mean every word I say, I wish you'd stay
Stay mean, stay clean
Don't ever ask me where I've been

Shine a light on me, come on babe, set me free
Don't go 'way, please please stay
Roll over and make my day

Shine a light on me, come on babe, set me free
Don't go 'way, please please stay
Roll over and make my day

You're so bad honey, you're so tough
Skin so smooth, but your tongue's so rough
Crazy mama, turn me down, watch out 'cuz I'll be
'round
You're so bad, I'm so glad
Best woman that I ever had
I mean every single word and I hope you heard
I'm the one, to turn you on
Stick with me and you can't go wrong

Shine a light on me, come on babe, set me free
Don't go 'way, please please stay
Roll over and make my day

Shine a light on me, come on babe, set me free
Don't go 'way, please please stay
Roll over and make my day

Be the one you want to be
Don't go anywhere far from me
Touch me there, show your care
Can't scare you if you can't be scared, know you, it's
true
Be alright if you know me too
I mean every word I hear and I hope it's clear

'Cuz if you go, hope you know
You ain't gonna see the sun no more

Shine a light on me, come on babe, set me free
Don't go 'way, please please stay
Roll over and make my day

Shine a light on me, come on babe, set me free
Don't go 'way, please please stay
Roll over and make my day

Shine a light on me
Shine a light on me
Shine a light on me

Shine a light on me, come on babe, set me free
Don't go 'way, please please stay

Shine a light on me
Shine a light on me
Shine a light on me
