Pack my bags and leave today
You read this, I'll be far away
Ain't gonna give ya no moon in June
Never see you, it'll be too soon

One eyed Jack, gotta watch my back
Meet you 'round, guess I better, shut you down
Shut you down, shut you down
Steal your thunder, turn you 'round

Listen up 'cause I'm telling you
The magic moments were way too few
I'd like to stay but you get too weird
You don't look right since you grew that beard

One eyed Jack, gotta watch my back
See you 'round, guess I better, shut you down
Shut you down, shut you down
Steal your thunder, turn you 'round

Wassup, yo

Tell you babe, what I'm gonna do
Leave this town and I'll leave you too
I don't wanna see your face no more
Don't come 'round knocking at my door

One eyed Jack, gotta watch my back
You're oh so 'round, guess I better, shut you down
Shut you down, shut you down
Steal your thunder, turn you 'round
