Have you seen the clowns, conjurer and his hat?
The circus came to town, join the fun won't everlast

The balloons, the laughs, The living bullet flying
through the air
Shadow will last, Animal magnetism everywhere
Introductor's grinning, Welcome everybody
You can see the tightropewalker - And the clowns
(Tonight)
You can see the tightropewalker - And the clowns
(Everybody)

Forget the pain, forget the sorrow
Enjoy today, die tomorrow
Look in the mirror of life - See your fate

Look deep into your eyes - Go through gate
Image altering - Those eyes gruesome
See everything - Your soul, damned

Have you.....

You can step to the other side - The mirror won't
obstruct you
Isn't it so nice - To reach your destiny, too
Roll your dice of life - Strengthen your certitude
And walk to eternal night - Everything's done, can't
undo
And walk to the eternal night - See no light...
...See no light!
