Some cries with babies died  
So why then, bring him in  
I gotta keep the world at bay  
So how do you expect to live

And I just wanna  
Start over, start over (x2)

So go find that boy, the friend of mine  
The half-lit broken taught with the glassy eye  
And every mistake I make is one more dig to the  
muddy grave  
How do you expect to live  
I just wanna,  
Start over, start over (x3)

.....

I slay ghosts now,  
So watch me burn,  
Burn, burn this down the the ground

And I just wanna,  
Start over, start over (x7)
