(overend watts)

Hey there annie, that means you
Why don't you leave that man
'cos he never was true
You've got the figure and the face
To go any place
So drop those dishes
And get back in the race

I know you can do it
You know you can too

Look what I got ... (?)
She's a chick that's gonna give
You stone in the ... (?)
Got a straight for a seven and she's ready to sigh
When you see her you'll be itching
'cos she's looking so fine

I know she can do it
You know she can too

Don't let them tell you
That all girls are the same
That's only part of the game
Don't let them tell you
That you'll never find fame
We know best

Hey there annie our dream's come true
Got a million dollar contract
And a cadillac too
And we're laying in the shade
Of a willow tree
Sipping on a glass of vintage '53

I knew we could do it
You knew we could too

Don't let them tell you
That all girls are the same

That's only part of the game
Don't let them tell you
That you'll never find fame
We know better

Don't let them tell you
That all girls are the same
That's only part of the game
Don't let them tell you
That you'll never find fame
We know best
