(overend watts)

Like the sea after the storm  
You calm me, keep me warm and safe from harm.  
Heal my wounds, cure my pain,  
I feel cold, I feel rain on me again.

So take me and hold me and keep me don't burn me,  
Love me and need me and tell me don't burn me,  
Your light shines bright  
Reach me and save me, protect me, don't burn me,  
Show me, enclose me, surround me, don't burn me,  
Your light shines bright...

Through the dark, I see fear,  
I can breathe, now you're near and holding me.
