#### Verse 1

I could of sworn that it was all real life  
But when I woke up it was all in my mind  
I was singing taken over the stage  
I heard people calling out my name  
I knew that I was in the fame  
But when I woke up it was all the same

#### Chorus

I was dreaming, it was all in my mind  
I was dreaming, I wish that it was real life  
I need to get rid of all that pain and come to the fame  
2\*

#### Verse 2

It was a big giant pool that I had wanted  
To go to  
Instead of calling me miss they call me misses  
Everyone coming to me with hugs and kisses  
Everyone was cheering and watching me sing  
I had a lot of fun in my sleep  
To bad everything was just a dream

#### Chorus

Hook: I know it was a fake world but sometimes it just  
felt so real but I can make it happen I can make the real  
deal

#### Chorus 2\*
