For many a year I was so confused  
I didn't know what to play  
But then I met a man who picked up his horn  
An' showed me just what to say

He was skinny an' lean an' he kept his nose clean  
An' he knew how to write, them tunes  
Then came a day, we started to play  
An' then we conquered the moon

I'm in a band, a rock an' roll band  
I'm in a band, yeah yeah

We called him Beethoven an' then we showed him  
Exactly where we wanted to go  
So we started a band and toured all the land  
A-rackin' in all that dough

We smoked a few cigs an' played a few gigs  
An' never did delay a one  
We covered the states, an' hit the great lakes  
An' boy did we have us some fun

I'm in a band, a rock an' roll band  
I'm in a band, yeah yeah

I'm in a band, a rock an' roll band  
I'm in a band, yeah yeah

We had an idea so we put it in gear  
An' soon we were out on the road  
We did it to play, they started to say  
The animal trainer and the toad

I'm in a band, a rock an' roll band  
I'm in a band, yeah yeah
