He never knew you  
Neither did I  
Year 1942  
She was born and she died  
Just a baby  
Not much of a life  
The father, a drunk and his poor wife  
The memory found late one night  
Her name was Judith white  
Her memory found once more  
Her name was Judith white....

These people made me  
Now its history  
These people made me  
Now it's family

She's gone to heaven  
Won't be back again  
Never knew her  
But I won't forget  
Family history and family past  
Life is tragic but what a blast  
Her memory found late one night  
Her name was Judith white  
Her memory found once more  
Her name was Judith white....

It's nice to know where you're from  
It's nice to know where you belong  
It's nice to know nice to know
