"Gold in The Fire"

Visit "[Gold in The Fire](#)" on MotoLyrics.com

Let's spend the night together, spend the night in your arms

You've got the red dress on you, I've got the book of charms

Let's make a daring story, dress up like Tollington

We'll be the secret army desperately on the run

Gold in the fire, gold in the fire, gold in the fire, gold in the fire is you

Your love stuck in my bones

The light's calling you

Maybe just one more dance

Be slow and be true

Let's spend the night together, spend the night in your arms

Dust the light off my shoulder, you sing the school boy psalms

Let's paint you picture perfect, run around in the rain

Building a magic castle, escape on our aeroplane

Your love stuck in my bones

The light's calling you

Maybe just one more dance

Be slow and be true

Gold in the fire, gold in the fire, gold in the fire, gold in the fire is you
