I watch you from afar  
Can't reach your burning star  
Still I will to keep you safe in my sight  
I know we hardly speak  
But your words I can complete  
I have built you up too high to talk you down

And I won't let go  
I won't let go of you  
There's no limit to my love  
No limit to my love  
I won't let go my love

Can't step over the line  
And you don't give me any sign  
So I will take a deep breath and rise up  
I live unnaturally  
Half with you half with me  
All my words lay waisted at your feet

Can't you see I'm waiting for you to come back to me  
I never left you only you can choose what you wanna  
see
