Broken bones, a black eye, and it hurts as I walk away
Strange looks pass me by, they can see but they just
won't say
Can't breath, I've got no will to try, slowly blink and I
miss a day
Don't know why I just can't say goodbye, what a fools
paradise

It must be love, it must be love, it must be love that I'm
thinking of
It must be love
It must be love, it must be love, it must be love with a
boxing glove
It must be love

Mind is lost, just can't justify this feeling I have for you
No excuse no hard alibi you caught me and you turn
me blue
Captor in isolation I forgive everything you do
Devil's own, your aspiration, I'm waiting for you

It must be love, it must be love, it must be love that I'm
thinking of
It must be love
It must be love, it must be love, it must be love with a
boxing glove
It must be love

I build my world inside you
You burn it all down
