Craving human touch  
You're the sweetest curse  
Open up your arms

Push me pull me down  
My lips won't make a sound  
Can't bare to do without

We're tied together travelling by ambulance  
You arrest my heart but I knew this from the start

Too old to let it go  
Too young to work it through  
Just carry on with scars

Let's take off our disguise  
The truth is hidden well  
I found you in your eyes

We're tied together travelling by ambulance  
You arrest my heart but I knew this from the start

Don't want to be all alone you can put me on life  
support  
Throw away all the clocks, you're the light in the dark

Burnt fingers won't recover, won't recover anytime  
soon  
So light the fire, let's run in to it, run in to it, don't  
wanna be saved

Craving human touch  
You're the sweetest curse  
Open up your arms

We're tied together travelling by ambulance  
You arrest my heart but I knew this from the start

Don't want to be all alone you can put me on life  
support  
Throw away all the clocks, you're the light in the dark

Burnt fingers won't recover, won't recover anytime  
soon
