Up in the sky I wanna be. Up in the sky I wanna see
everything from there.

I've travelled round the world and I haven't got there
yet but I'll keep on trying cause I know I'll get there
eventually.

When I get there I will be happy and I know I will get
there eventually.

I've travelled round the world and I haven't got there
yet but I'll keep on trying cause I know I will get there
eventually.

How long is it gonna take. If I find a way it will be time
to wake to the way to get there.

I'll love it when I get there.

I'll love it when I get there.

I've travelled round the world and I haven't got there
yet but I'll keep on trying cause I know I will get there
eventually.

I'll find a way. Yeah

I'll find a way. Yeah

I'll find a way. Yea-ah

I'll find a way.

Cause that is where I wanna be. That is where I wanna
be.
