I was sitting in the street when the news came my way
(x2)

Good news (x4)

I was sitting in the street when the messenger came by
I was sitting in the street when the messenger came my way

Good news, good news like a rare blood disorder
Good news (x2)

I was sitting in the street

I don't believe I've made it clear what exactly I mean by that

I was sitting in the middle of the street

Dust made it's way into my legs even though my shirt was tucked in

And I saw the colors forming in the west

Saw the bright feathers reflected in the sky, now

Good news (x4)
