My love is like a powder keg  
My love is like a powder keg in the corner of an empty  
warehouse  
Somewhere just outside of town  
About to burn down

My love is like a Cuban plane  
My love is like a Cuban plane flying from Havana  
Up the Florida coast to the 'Glades  
Soviet made

Our love is like the border between Greece and Albania  
Our love is like the border between Greece and Albania  
Trucks loaded down with weapons  
Crossing over every night  
Moon yellow and bright  
There is a shortage in the blood supply  
But there is no shortage of blood  
The way I feel about you baby can't explain it  
You got the best of my love
