bang, pow! look at me now.
don't let the cows stray off too far.
come down, take a good look around.
see how the cows start to shine like light bulbs.

I love the cows.
I love the cows.
I love the cows, yeah.
I love the cows.

rain comes, strikes you dumb.
re-seed the meadow so the cows don't starve.
mud puddle's a fine place to cuddle.
you're a mosquito or a mosquito's baby.

I love the cows.
I love the cows.
I love the cows.
I love the cows.

they're smiling in your face.
all the time they wanna take your place.
yeah you know who I mean,
talkin' about those cow-machines.

I love the cows.
I love the cows.
I love the cows.
I love the cows.
