Like a star come down to walk the earth in radiant array  
I saw the light of my spirit descend the other day  
I was standing by the bus stop on Northeast 33rd  
When I got the word

I will be made a new creature  
One bright day  
I don't have to be afraid  
Speed that day on it's way  
You can't tell me what my spirit tells me isn't true  
Can you?

Woke up on lockdown one more time  
My visions won't ever learn  
But I see the light that much clearer every time I return  
Forge my armor in the old fire  
My spirit sings loud and clear  
Even in here

I'll be reborn someday, someday  
If I wait long enough  
I don't have to be afraid  
I don't wanna be afraid  
You can't tell me what my spirit tells me isn't true  
Can you?
