Wanna ride  
To the place where we touch and there is no time  
You reside  
In the moments of silence in the night time  
Open wide  
I get lost on this highway get lost in your eyes  
Neon signs  
Neon signs follow us to the cities outside

Wanna ride  
To the place where we touch and there is no time  
You reside  
In the moments of silence in the night time  
Open eyes  
I get lost on this highway get lost in my mind

Neon signs  
Neon signs follow us to the cities outside

Learn to leave questions behind  
The things that we do undefined  
As we drive on the roads they unwind  
Unwi I ind  
I stare out of focus with you  
Observing a world with no rules  
And I don't care what we're gonna do

No yellow lines

No yellow lines x3
