I do not know her name  
I've thought she was the same  
As the girls I left in old Mexico.  
Tequila  
sun and fun  
And nothing to be done  
But I've lost my heart in old Mexico.  
I left her there behind

She was always in my mind  
The little girl I met in old Mexico.  
I miss her ev'ry day  
So I know I must away and go back to her  
In old Mexico.

I hear the guitars playin' ev'ry night  
I feel sad 'cause she's out of sight

I'll take the morning flight  
Going back is right.  
I hear the guitars playin' ev'ry night  
Telling me I have to see my bride  
I'll take the morning flight  
And wait no more.

When I left her behind  
There was nothing on my mind.  
About a love I never saw before.  
We both enjoyed the sun  
And time does smoothly run  
But I've lost my heart in old Mexico.  
I met her on the shore  
She's the one that I adore  
Ev'ry day when I was down in old Mexico.  
I miss her ev'ry day  
So I know I must away and go back to her  
In old Mexico.

I hear the guitars playin' every night  
...
