the bell tolls the tears of midnight's gloom  
and opens the gates to twilight's tomb  
the black sky above  
and the darkness inside me  
consoles me, so soothing  
consumes me, so slowly

no light will shine  
no shadows thrown  
no mask will hide  
no mercy shown

the sky tells the tale of endless doom  
and opens the doorway unto the room  
where our eyes our blind  
to the portal opening  
can't you see, me bleeding  
misery, sustains me

no light will shine  
no shadows thrown  
no mask will hide  
no mercy shown

the clock strikes the hour when darkness looms  
and echoes the rise of shepherd moons  
the gale flies over  
and the raven is watching  
he has seen me weeping  
and holds me in his wings

the sky it grows darker still  
the white mists rise over the hill  
the forces stir, the storm will break  
shattering through the night to wake

of wind and sea  
of sand and stone  
never to be  
no mercy shown  
so cold and gray  
so cold and gray
