"The Gates Of Heaven"

please take me to heaven
in a black and white dream
we'll drift on clouds of ivory
in a smoking air stream
and then we'll float away

please take me to heaven
on heroic glass wings
we'll float beside the angels
cut the stars from their strings
and then the night will fade

please take me to heaven
on a promise you'll keep
we'll make a bed of wishing
in a garden of sleep
and then come what may

please take me to heaven
in a blanket of night
we'll keep our bodies warm
and let our shadows take flight
and we'll be on our way

please take me to heaven
on a kiss with closed eyes
we'll walk between the spaces
of the air and the skies
until the light of day

please take me to heaven
in the warmth of your arms
we'll swim in seas of touching
and we'll drown in its charms
and we'll forever stay
