So young, yet she's found a good reason to
Act as if there isn't an answer to.
Her actions hurt more than she wants them to.
I am not a person you can see ... THROUGH.
... This is not what I had wanted at all! ...

How can you exist knowing all the pain you've caused
the rest?
Going through your days like nothing's wrong.
Keep an eye out: you will get yours, you will learn that
Your one chance is worth ignoring.

I've seen first hand what all your words can do.
With deaf ears, I'd still hear the lies from you.
A blind man could stare at her and see through.
With no tongue I still would be laughing, too.

Is it your personality? Or just a hatred there for me?
I'm asking honestly to see, why are they idolizing ...
YOU?
... This time I know that you won't see me crawl! ...
How can you exist knowing all the pain you've caused
the rest?
Going through your days like nothing's wrong.
Keep an eye out: you will get yours, you will learn that
Your one chance is worth ignoring.

No matter how hard you try --
You will never stop me from who I'll be.
Now is not my time to lay down and give in to --
It's bad to love my enemies, for all the strength they've
given me.
This is a perfect ending to ...
THE POINTLESS LIES YOU PUT ME THROUGH!

How can you exist knowing all the pain you've caused
the rest?
Going through your days like nothing's wrong.
Keep an eye out: you will get yours, you will learn that
Your one chance is worth ignoring.
