(Power Of The Motion)

...Alone is the One who survives to Humanity...

I carve my skin and pain is allowed to flow thru scars  
Self abstraction from compulsive matter imploding  
Saturates the weakness of meat to the corpse  
deflagration  
Frozen movements in divine cults of sativ subliminal  
structures

Corroision of form  
Essence displaced impermanence  
In monumental persistence of I  
Organism shivers

While violate the vile Substance  
I extirpate my eyes to perpetuate the night  
Which keeps the secrets of blood  
Deforming in genesis of Nothingness  
Screaming reminescences I will disintegrate in places  
Where only I can breathe  
No senses serve reality  
I amputate all nerves with the realm of I  
I draw the vacuum  
The vacuum shaping me

I condemn my blood for creating warmth  
I condemn my blood for feedin' what should die  
I condemn my blood for it sentences me to a past  
I condemn my blood for enchaining me to humanity

Shall my Order be raped by eternal titanic rises of  
deaths  
Until the march towards the stars  
Until the fall between the worms

I am the nomad sun  
That roves for force of fear  
I hold perception sceptre of the Worlds below  
Transcend beyond the man  
Destroyin' this earthly blood
