Set up the mission, unfurl the flag
It's time to lay roots down, take my head out of the bag
Make me a baby, take me a wife
With these things, maybe I'll be alright
There's a better way I know there's a better way
When I need it, and I need it for sure everyday
Fill up the museum, an island in the sun
More things that I don't need just pick me up
Head for the waterfall, don't drown in the juice
Make the right noises maybe I'll be alright
How come it's so hard to climb And so easy to slide?
How come it's so easy to fly And so hard to thrive?
There's a better way There must be a better way
When I need it, and I need it for sure everyday
It's so much harder much harder to try
It's easier to lie, to turn a blind eye
But now There's a better way,
I know that there's a better way
When I need it, and I need it for sure everyday
There's a better way it makes for a better way
When we need it, we need it
We need it for sure, everyday
Unfurl the flag Got my head out of the bag
I know it makes for a better day
