Written by Kessler, Kilgore and Parker

CHORUS:

There's just no justice in this world
As long as you and I are apart
There's just no justice in this world
As long as there's a ring around your heart
Who said there's hope if you wait for the morning?
Who's got the gold that was waiting for you?
I wanna know no more wishes and warnings
If there's a god I wanna see him soon
I'm so in love I could cry forever
And drive you to tears with my pain
Only a flood's gonna get us together
Lord only knows how long I've waited for rain
I know that you bleed
My heart goes out
I know that you need
My help
So I'll keep holding on

CHORUS

I just can't run, even though I been wishin'
Can't get your body off of my mind
Under the sun under any conditions
Could you ever come back to me again?
I know that you bleed
My heart goes out
I know that you need
My help
So I won't let go

CHORUS (X2)
