

Numb "Curfew"

Visit "[Curfew](#)" on MotoLyrics.com

take it back, take it back

sedate me
fellate me
complicate me

when you're here, you feed my need and i fear
i can't stop
control the flow when i'm on top

you hold me down while you're taking
you wonder aloud why you're shaking

inflate me
berate me
degrade me

when you're here, you feed me need and i fear
i can't stop
control the flow when i'm on top

you hold me down while you're taking
you wonder aloud why you're shaking

why'd you take?
everything
from something
or someone
you never loved
loved
loved
loved
someone that you never loved

you hold me down while you're taking
you wonder aloud why you're shaking

you hold me down while you're taking
you wonder aloud why you're shaking
