the gentle lick of your tongue
on my heart, gets me hard
and now i long to pry
into your mind, into your life

in your head
i'm prey, it's okay

when we said
our world is gone, wounded bond

with one look into your eyes
i realize, that you're cold (revised)
i feel the lie, that you sold (original)
promised tangles of your skin
it reels me in, and it begins

in your head
i'm prey, it's okay

when we said
our world is gone, wounded bond

just want to be your pillbox
swallowed down, pull me 'round
think i can't take much more
from the whore, i adore
