oh here it comes again, huh?
walkin' up, lay down the law

but you don't know me punk
and you don't know me punk

this is war
and i fear
this is war, cause you chose me

i feel you steppin' again
wanna front like you're my friend

but you don't know me yet
and you don't know me yet

this is war
and i fear
this is war, cause you chose me

why?

this is war
and i fear
this is war, cause you chose me
