Running some other way,
Got to get out
You're already too late
To think of some other way now,
Dedicating endless plaques to friends
You're not proud

Proud of something that's changed
Changed your inner mind
You're already too late;
The cycle starts with a shout loud,
What follows next was never planned,
Well, not that you knew

All words drown out
You're falling down

Reeling and feeling its dragging you down
You can't deny
Our slow decline
But ever since I

I've changed you cry
This timeless lie
Is growing on me

It's all that's left of me
My life my fight my time my vice my crime
You'll never relate to what it feels like
Cos its already too late
To feel a thing when your
Insides, are full of hate
And there's no way to fake decisions

It's a subliminal fate
It wraps itself round
Your fear of what is blowing away
The world it seems
Is weighing down on you like a mirror

Is it just a splinter
Of all we lost

Caught in the spotlight but no-one is ever looking at
you
You can't deny
Our slow decline
Accelerates mine

I've changed you cry
This timeless lie
Is growing on me

It's all that's left of me
My life my fight my time my vice my crime

-----+

All that you break is our shared fall
But you can't recall
The scale of it all
