In the land of 1000 dances,  
In the world that rules my senses,  
In my heart and soul a burning flame,  
When the Tango lights inside me  
When the rock starts rolling gently,  
And the drums start beating in my brain.

I have to dance, whenever the music starts to take me,  
Over and over Iâ€™ll dance the whole night through  
I have to dance and every heartbeat takes me higher,  
Over and over Iâ€™ll dance the whole night through.

Round and round weâ€™ll dance together,  
Till the music stops forever,  
And the last accord has faded away,  
Untill then i beg you baby,  
Donâ€™t say no â– donâ€™t say maybe,  
Let me have the next dance with you.

I have to dance, whenever the music starts to take me,  
Over and over Iâ€™ll dance the whole night through  
I have to dance and every heartbeat takes me higher,  
Over and over Iâ€™ll dance the whole night through.

I have to dance, whenever the music starts to take me,  
Over and over Iâ€™ll dance the whole night through  
I have to dance and every heartbeat takes me higher,  
Over and over Iâ€™ll dance the whole night through.
