From night til dawn, you soldiered on, did ya?  
Each day is a gift  
But you lead us strong and kept us on, did ya?  
Like each day is a gift  
I never thought that I'd be here with you  
Saying all these words that I have to  
After all is said and all is done  
I never meant to ever hurt no one  
And nothing has to change  
You and I are strange  
Passing in the night between the darkness and the rain

At the crack of dawn, you grabbed my arm did ya?  
Each day was a gift  
You told me slow  
Before I move on you must remember  
Each day is a gift  
I never understood it was for you  
Could never be for me  
This will have to do  
Yet after all you've said and all you've done  
I know you never meant to hurt no one  
And nothing has to change  
You and I are strange  
Passing in the night between the darkness and the rain  
Nothing has to change  
You and I can be strange  
Passing in the days between the morning and the rain  
I can see you now, it's like you're never gone

From dusk til dawn, you soldiered on  
Like each day was a gift  
Oh you lead us strong but you couldn't hold on  
And that's fine cause each day was a gift

I don't know when I'll be home  
So save a place for me til I get there  
I don't know when I'll be home  
So save a place for me
