I look out below me the clouds on top the blue  
kids thinking about nothing, cause there's  
absolutely nothing to do.  
The door ain't wide just open, open to the sky  
On top the cage keep hopin', sayin cause on top  
the cage just try, on top the cage  
Help out your brother to the light at peace is a  
helping hand  
With help from our mother we shine so bright and  
march to the father's land  
I said we take the spot and we take it up top and  
the key fits in the lock  
You come with me on this lifting walk, and you  
know you never come back  
Because on top the cage is the harmony that bars  
and chains never chime  
Wherever we go it's not far for me, better befriend  
old man time.

I stood on top of this cage one night, all night long  
From here the view was proud  
I could see all these beautiful clouds  
So I told people come out of your cage  
Time to break lock forever  
Join together march on top hold my hand, say  
goodbye to never  
You can be my man if you want to hang out here  
Just me and my girl on top of this world and we sit  
there and we stare  
At the clouds, green hills, and the mountaintops,  
and the river to the side  
You can come too, if you want, you don't have to hide
