No pictures
No flowers
Crumbling towers
Glamorize fallen rubble
Stirring up all this trouble

Spreading the fear in the poison city
Toilets clogged with black water

Are we not being terrorized?
Two-faced conceit
Anesthetized
Buttoned down their dollar signs
And their collective bully mind
Spreading the fear in the poison city
Toilets clogged with black water

Spreading the fear in the poison city
Toilets clogged with black water
No pictures
No flowers
Crumbling towers
Glamorize the fallen rubble
Stirring up all that trouble
