Wake up to the sky,  
Crackling with a thousand notes  
Enveloping my mind.  
Walk along the streets,  
Crumbling nerve endings coming down,  
You're all I find.  
Voices move and pictures talk,  
The language of the screams  
From the pupils of your eyes,  
Guiding me down the lightening corridor  
Where the ancient shadows rise.

Stare across a sunny day, go smiling  
Colors breathing in the heat haze,  
Songs that make you laugh,  
Tear the streets in half  
As the moon spins into a new phase,  
By the forgotten trail of voices  
Floating outward trying to reach you.  
These reflections will turn my thoughts to stone  
For you alone to see through.

You're dreams that run wild,  
You're an electric child,  
You're a time-travelling witch,  
I summoned you and you smiled.  
Through the mirror of night,  
In the conjuring light,  
You reached for the switch  
And made everything alright,  
You made everything alright.

Wake up to the sky,  
Crackling with a thousand notes  
Enveloping my mind.  
Walk along the streets,  
Crumbling nerve endings coming down,  
You're all I find.  
Voices move and pictures talk,  
The language of the screams  
From the pupils of your eyes,  
Guiding me down the lightening corridor

Where the ancient shadows rise.

You're dreams that run wild,  
You're an electric child,  
You're a time-travelling witch,  
I summoned you and you smiled.  
Through the mirror of night,  
In the conjuring light,  
You reached for the switch  
And made everything alright,  
You made everything alright,  
You made everything alright.
