You chose your way to complain and point me out  
But life started to show you otherwise  
You promised me lies crying just enough  
I gave you all I had this time  
And you couldn't get higher  
Than you wonder  
Choosing  
Every lie  
Day by day

(chorus)  
Gonna watch you pay back when you get out there  
With no where else to go  
I know maybe one day, someday, Danny, maybe, you  
will get enough  
Go and make it the way you have always planned  
I won't say a word  
Just want you to know I'll be here waiting, as long as I  
can stand  
Maybe tomorrow

You chose it now you should stay and find out  
What started to bend you out of mind  
You got so high that you don't even know  
Now you want to come around, but  
You pushed too far  
and then you broke it  
Faking  
Every word  
Day by day

(chorus)  
Gonna watch you pay back when you get out there  
With no where else to go  
I know maybe one day, someday, Danny, maybe, you  
will get enough  
Go and make it the way you have always planned  
I won't say a word  
Just want you to know I'll be here waiting, as long as I  
can stand  
Maybe tomorrow

Release me, who's going  
to save your head?  
'cause now I need you  
More than I wanted  
Go back!

It's gonna take too long before you see the end?  
See the end!  
(chorus)  
Gonna watch you pay back when you get out there  
With no where else to go  
I know maybe one day, someday, Danny, maybe, you  
will get enough  
Go and make it the way you have always planned  
I won't say a word  
Just want you to know I'll be here waiting, as long as I  
can stand  
Maybe tomorrow
