Save my love, immediately
Save your dream with your dance
Only for tonight, the PARADISE can be released
I'm searching, boy

You are my gravity, gravity, gravity
A future that I can go to with you
Is now unfolding
You are my gravity, gravity, gravity
Let's yearn for light and fly, we can fly high

Make a move some more
Make your day as you want
Party tunes slash apart the night and become tightly
engraved
Don't stop, boy

I'll be your gravity, gravity, gravity
Now I'm jumping over
The rules that existed up to yesterday
I'll be your gravity, gravity, gravity
Even the shape of freedom, we can change now

You are my gravity, gravity, gravity
A future that I can go to with you
Is now unfolding
You are my gravity, gravity, gravity
Let's yearn for light and fly, we can fly high

I'll be your gravity, gravity, gravity
Now I'm jumping over
The rules that existed up to yesterday
I'll be your gravity, gravity, gravity
Even the shape of freedom, we can change now
