The fading light of day lingers on your sleeping face
My lover's lullaby lately lost it's tender grace
Somewhere in your dreams tonight
Let my lips come close to you and hold me tight
After all I hardly bear
To turn my back to loving arms and leave you there

Chorus:

Babe, I
I won't forget you
And I won't regret you
I won't forgive you Anymore, no more

I won't forget you
And I won't regret you
I won't forgive you Anymore, no more

We said our first hello beneath a blue umbrella sky
A simple moment shared by strangers who were
passing by
People say when you're in love
It seems as if tomorrow almost never comes, no never
comes
After all your loving touch
Through my eyes of love to me it means so much
And that's why

Chorus:

I won't forget you
And I won't regret you
I won't forgive you Anymore, no more
I won't forget you
And I never let you Anymore, no more

I won't forget you
And I won't regret you
I won't forgive you Anymore, no more
I won't forget you
And I never let you Anymore, no more

Anymore no more ooohhh

Anymore no more

Chorus:

I won't forget you

And I won't regret you

I won't forgive you Anymore, no more

I won't forget you

And I never let you Anymore, no more

I won't forget you

And I won't regret you

I won't forgive you Anymore, no more

I won't forget you

And I never let you Anymore, no more

I will never let you

Anymore no no

Anymore no no

Anymore no no

Anymore no no

Anymore no no

Anymore

Uhuh

I won't

I won't forget you

I won't

And I won't regret you

I won't

I won't forgive

I won't

I won't forget you

Oh no oh no

I will never let you
