I don't know what you been told
But I don't like to waste my line
Baby show me what you got
Or you just have to stand in line

If you wanna be my lover
Push it really good and do me Right
Come on let us both discover
We can have it all tonite...

I believe, I believe in miracles
You and me, Can't you see
That we belong
Believe, I believe in miracles
You and me, Can't you see
it can't go wrong

I'm a true believer
Look into my eyes
A really strong believer
Lost in paradise

Chills are running down my spine
I feel it in my heart and soul
Take me to another place
Where we can go and lose control

If you wanna....

I believe, I believe in...

I'm a true believer...
