"Wish It Were Me"

Saw you dancing last night with someone

Wish it were me, wish it were me

Dancing with you, wish it were true

Saw you holding your arms around him

Wish it were me, wish it were me

Clinging to you, wish it were true

Don't say it's hopeless

Won't you learn to tell

How I'd like to touch you

With my prayer

Yes, I pray that my prayers

Will touch you, touch you for true

So you'd love me too

And the whole world would see

Wish it were me

And the whole world would see

I wish it were me
