Walked in the storm didn't ya baby  
Got your feet wet for the first time  
Yeah, you found out the truth  
When you tried to turn me loose  
You found out those eyes could cry

Didn't you baby  
You went down another road  
Searchin' for new affection  
How was you to know  
Oh now tell me, where do we go  
Where do we go from here

You left me here one early mornin'  
When ya thought I was still asleep  
If you'd known I was awake  
Feelin' like my heart would break  
What a way to say goodbye

(Chorus)  
(Repeat Chorus)

Where do we go?  
Where do we go from here?  
I want to know now  
Somebody tell me  
Where do we go??  
Where do we go from here?  
Now, I want to know  
Why don't you tell me  
Where do we go  
Where do we go from here  
I want to know  
Now tell me  
Where do we go?  
Where do we go from here?
